

Replacement and Agenda 4/22/2018

Budget:

Zarella Bear

- She wants to get involved, she sees the limitations that there is only so much you can do just as a senator.
- Her experience is limited to leadership positions outside of senate, she is eager to learn.
- Apply for it via the forms on the SG website, there is an 8 week period prior to improving the budget cycle, she likes the laundry grant and the clicker system.
- She wants different speakers that are motivated by surveys
- Activity and Service Fee is 19.06
- The big 4 are SAI, Rec Sports, Student Government and _____
- The 800 codes govern SG finance

Zachariah Chou

- He sees the value in all of the money, he did hear that the Reitz wants to increase the fees, our administration hasn't been proponents of fee increases if the committee were to decide that it would be good he wants it to be transparent, the services are good for the students
- Making the budget much more transparent, by giving it its own place on the website, this would make it easier there, stuff is just down there and some of the questions are going to contact by questioning the budget from the PRR, ya know things like that, this is also a an idea for judiciary to give that requirement (they are all connected), he wants funding for acapella groups that are exclusionary for creating a coalition for those groups and a review of current financial restrictions. There was just lavender graduation by doing this we have
- There is a four-digit budget for Murphree area budget, as AASU conference chair he had to take care of SAR and TAR
- Meet with SAI, then Judicial requirement then allocations for a year then you get into the budget cycle, the budget committee considers the organizational budgets, you have to have at least 10 members due to the SAI regulations (necessary from the Red Cross President)

Richard German

- How he introduced SG to people who the talk to, he mentioned the money that they use first, but it is what people best understand... therefore the budget committee is vital. It is very apolitical
- Sometimes there are many office hours so to advocate and highlight when office hours, make a list-serve of student organizations for the office hours to clarify how to get onto budget
- His best qualifications for this committee is to get things done, he says that he is very passionate about the cause and would do a very thorough job

- Go through allocations you have to have a treasurer after a year, where you need to get all of that approved then once your committee chair gets you on the list for one consecutive year then you can be added in as a yearly budget.

Meryl Jones

- Clerked for the Budget hearings after seeing and watching all of that I was able to see how student organizations I was able to see how all of the finances occurred I was able to see how all of this occurred
- She served as the clerk so derived budget hearings from that, via organizational and big 4 hearings over the summer in high school I budgeted a large budget of 10,000 dollars. A lot of my knowledge was acquired from SG finance budget hearings
- Have set introduction section, have a workshop to make all of the organizations educated in this budget cycle, also we could make sure that there is a way to alleviate all of the SG finance budgets and increase them to get higher expenditure rates to make sure that they are being fiscally responsible
- What codes do the budget hearing adhere to- 800
- What is the big 4 →
- You have to two consecutive terms on Allocations and have previously been approved by SAI and have received at least 1000 from allocations.

Graduate Senate Seat

Maria "Laura"

- Her motivation was the grad seat, she saw more opportunity to help her fellow graduate student by helping them feel much more assimilated, this made her want to be part of student government, she had this idea of what the past 4 year would do and make there see what they would want
- What would be your prior experience that would benefit you fill your position
- Graduates specifically could benefit because of college specific college graduate student meetings, she thinks that she could get her ideas from that.
- Will you be enrolled in classes over the summer? Yes.

Lenz Gelin

- Motivated because of his new introduction into the graduate program, he has always wanted to get into government at some point from his background in politics and economics, he wants to eventually work as an economist in international governments. From the Haitian Republic, he has a strong background in politics in Haiti, his uncle was the Prime Minister and he saw them as mentors
- Some ideas include because he can bring a lot of information into the table because he can reach out to international students because he is well known in that area because he is well known there, therefore he is well connected

Emily District D

- She is motivated by her role as a student for the past year and a half, coming from her background she saw that a lot of people had similar struggles, she didn't know how to be involved and call out any injustices. She has seen a lot of changes that she is wanting to put a lot of effort behind
- She would want more funding acquired via the DRC and their inclusion workshops to work with students with disabilities and inclusion workshops
- She was part of FBLA to help managing the college and was part of AP and Dual enrollment, she is a first generation student as the director and summit director of She is the First, she is really passionate about that; without someone caring she wouldn't be here without it. She is involved in MUN to help show how to be clear on Parliamentary Procedure. She is worried about the buses and the liabilities via the busses in the summer. She had a rough time to finance preview and she had friends who were saving up money for this there were many monetary funds, she went to Preview prior to being accepted she wants to advocate for that.
- She will be taking that for a two week summer A study abroad and will be here for all of summer B

Joshua Clay Hurdle

- He wants to be part of the entity to make senate a better place because it is a chief entity to make the school a better place; the senate never fails
- Back in the day as a graduate senator he was able to part of the J. Wayne Reitz Liaison, previous R and E chair. In order to communicate effectively and wholesomely .
- Will he be here this summer
- To improve the graduate school he can represent the student council, they do a lot from the social to even more professional involvement that talk to the graduate council, many graduate students don't feel as if they have as many interaction accessibility

Jed: D

- What motivated you to apply for the seat he was motivated by his interest in student government, he is going into his senior year next year, he had associated it with politics and now sees it as an opportunity to give back to UF
- Is part of AASU, he was able assimilate people to their area
- His ideas he wasn't sure what the boundaries are: expanding the free printing locations to include more spread out areas to increase a notification system for the parking garage
- Tuesday at 7
- Here this summer

Michael Russel: Graduate Seat

- He is motivated by his experience on the campaign and the legislative director on the executive branch to get the executive agenda passed in the student senate, his favorite moment was passing a bill about encouraging the a renovation of the music building
- He is in the political campaigning student, he thinks grad students have a really low turnout and hopes to get people more involved, he recently went to a meeting where he was able to see that they want a better connection with student government, he hopes to be a liaison between student councils and himself, this would be a multi student effort in order to hopefully increase fee waivers for internship credits.
- He will be here this summer for summer C.

Motion to add student senate bill 2018-1046 to the Agenda by
Unanimous Consent by Megan Birnholts by unanimous consent

Motion to add agency head nominations to the agenda by a block by
unanimous consent by Libby Shaw.
